COGdesign 2017-18 PROJECT SHOWCASE and A PRESENTATION on the CHARLESGATE MASTERPLAN by Dan Adams and Marie Law Adams of Landing Studio

**Thursday, September 20, 6-8pm
Arnold Arboretum, Hunnewell Building**

**Free and open to the public
Registration recommended – please do so [here](#)**

The Community Outreach Group for Landscape Design (COGdesign) is pleased to showcase final designs for our eight 2017-18 projects. COGdesign provides pro bono landscape design services to community groups by matching them with volunteer designers/architects who collaborate to create resilient, green landscapes which meet

neighborhood needs. This year's projects range from community gardens in Chelsea and Mission Hill to parks, plazas and stormwater management plans for transitional housing, after school programs and community groups in five additional Boston neighborhoods, and Framingham.

Landing Studio is an award-winning architecture, design, and research practice whose work negotiates the intersection of large scale global industry with urban environments. Since 2005, Landing Studio has developed projects with port facilities and transit infrastructure entities in Boston and New York by designing shared industrial and public access landscapes, light installations, festivals, exhibitions, tours, and industrial/community operations agreements.
